REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "On December 6, 1995, the Third Court of Appeals in Austin rendered a judgment that the Texas Workers' Compensation Commission rule establishing a fee guideline for acute care, inpatient hospital services was void. That guideline was adopted by reference in Title 28 Texas Administrative Code 134.400. On December 13, 1996, the Texas Supreme Court denied an application by the Commission for review of the judgment of the Third Court of Appeals...The judgment of the Third Court of Appeals has become final and effective that the Acute Care Inpatient Hospital Fee Guideline (per diem rates) has been declare void. Due to the finality of the judgment of the Third Court of Appeals, a hospital may resubmit specific bills for acute care, inpatient hospital services if the services covered by the bills were provided on or after December 6, 1995. Resubmitted bills may be sent on the basis that reimbursement under the Guideline did not allegedly comport with the provisions of the Texas Workers' Compensation Act [e.g. Texas Labor Code 413.11(a) and (b)]. Insurance carrier should process those resubmitted bills, which must comply with the Commission's requirements set out in Title 28 Texas Administrative Code 134.800, in accordance with the provisions of the Texas Workers' Compensation Act."

Amount in Dispute: \$9,211.95

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Petitioner is not entitled to further payment from the Fund because the Fund has already paid Petitioner all moneys due under the statutory standard for payment established by §413.011, Tex. Labor Code. The statutory standard for fees charged and paid requires that: 1. The fees paid 'must be fair and reasonable.' 2. The fees paid 'must be...designed to ensure the quality of medical care and to achieve effective medical cost control.' 3. The fees paid must not exceed 'the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or someone acting on that individual's behalf,' and 4. The level of payment must be based, in part, on 'the increased security of payment afforded by 'the Texas Workers' Compensation Act to health care providers. TEX. LABOR CODE, §413.011(b). Petitioner has the burden of proof of establishing that the fee payments already made by the Fund fall short of the statutory standards of §413.011 and that additional payments are required to meet the fee set by the statutory standards. "

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
October 30, 1996 Through November 4, 1996	Inpatient Hospital Services	\$9,211.95	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. Former 28 Texas Administrative Code §133.305, effective June 3, 1991, 16 *Texas Register* 2830, sets out the procedures for resolving medical fee disputes.
2. Former 28 Texas Administrative Code §134.1(f) effective October 7, 1991, 16 *Texas Register* 5210, sets out the reimbursement guidelines for the services in dispute.
3. This request for medical fee dispute resolution was received by the Division on July 2, 1997.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - A- Preauthorization not obtained.
 - F-Included as Fair and Reasonable for inpatient services according to the Texas Hospital Inpatient Fee Guideline per diem rate.

Findings

1. The insurance carrier denied disputed services with denial code A - " Preauthorization not obtained." Division rule at 28 TAC §134.600, effective December 23, 1991, 16 *TexReg* 7099; states that "(a)The insurance carrier is liable for the reasonable and necessary medical costs relating to the health care treatments and services listed in subsection (h) of this section, required to treat a compensable injury, when any of the following situations occur: (1) there is a documented life-threatening degree of a medical emergency necessitating one of the treatments or services listed in subsection (h) of this section; (2) the treating doctor, his/her designated representative, or injured employee has received pre-authorization from the carrier prior to the health care treatments or services; or.. (3) when ordered by the commission." §133.307(h)(1) lists "all non-emergency hospitalizations" as health care treatments and services requiring pre-authorization. Review of the documentation submitted by the requestor finds that the requestor has not submitted documentation to support preauthorization or a medical emergency as required under §134.600. This denial code is therefore supported.
2. This dispute relates to inpatient hospital services. The former agency's *Acute Care Inpatient Hospital Fee Guideline* at 28 Texas Administrative Code §134.400, 17 *TexReg* 4949, was declared invalid in the case of *Texas Hospital Association v. Texas Workers' Compensation Commission*, 911 *South Western Reporter Second* 884 (Texas Appeals – Austin, 1995, writ of error denied January 10, 1997). As no specific fee guideline existed for acute care inpatient hospital services during the time period that the disputed services were rendered, the 1991 version of 28 Texas Administrative Code §134.1(f) applies as the proper Division rule to address fee payment issues in this dispute, as confirmed by the Court's opinion in *All Saints Health System v. Texas Workers' Compensation Commission*, 125 *South Western Reporter Third* 96 (Texas Appeals – Austin, 2003, petition for review denied). 28 Texas Administrative Code §134.1(f), effective October 7, 1991, 16 *Texas Register* 5210, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, sec. 8.21(b), until such period that specific fee guidelines are established by the commission."
3. The former Texas Workers' Compensation Act section 8.21 was repealed, effective September 1, 1993 by Acts 1993, 73rd Legislature, chapter 269, section 5(2). Therefore, for services rendered on or after September 1, 1993, the applicable statute is the former version of Texas Labor Code section 413.011(b), Acts 1993, 73rd Legislature, chapter 269, section 1, effective September 1, 1993, which states, in pertinent part, that "Guidelines for medical services fees must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. The commission shall

consider the increased security of payment afforded by this subtitle."

4. Review of the submitted documentation finds that:

- The requestor's position statement asserts that "On December 6, 1995, the Third Court of Appeals in Austin rendered a judgment that the Texas Workers' Compensation Commission rule establishing a fee guideline for acute care, inpatient hospital services was void. That guideline was adopted by reference in Title 28 Texas Administrative Code 134.400. On December 13, 1996, the Texas Supreme Court denied an application by the Commission for review of the judgment of the Third Court of Appeals...The judgment of the Third Court of Appeals has become final and effective that the Acute Care Inpatient Hospital Fee Guideline (per diem rates) has been declare void. Due to the finality of the judgment of the Third Court of Appeals, a hospital may resubmit specific bills for acute care, inpatient hospital services if the services covered by the bills were provided on or after December 6, 1995. Resubmitted bills may be sent on the basis that reimbursement under the Guideline did not allegedly comport with the provisions of the Texas Workers' Compensation Act [e.g. Texas Labor Code 413.11(a) and (b)]. Insurance carrier should process those resubmitted bills, which must comply with the Commission's requirements set out in Title 28 Texas Administrative Code 134.800, in accordance with the provisions of the Texas Workers' Compensation Act."

- In numbered paragraph 4 of St. Luke's Supplemental Response to TWCC Advisory 98-01, the requestor asserts " The request for reimbursement does not provide for payment of a fee in excess of the fee charged for similar treatment of an individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. Yet in numbered paragraph 1, the requester states, in pertinent part, that "St. Luke's discount rates for workers' compensation and managed care contracts are as follows:...

Workers' Compensation... Managed Care Contracts...

1996	47.8%	1996	41.6%
1997	50%	1997	45.3%"

The requestor is seeking reimbursement at 100% of the billed charges for the services in dispute, or in the alternative 97% of fees charged. Given that the requestor states that it discounted it's other workers' compensation and managed care contracts services by 47.8% and 41.6% respectively during 1996, the same year that the disputed services were performed, the Division finds that the requestor has not supported its assertion that the request for reimbursement does not provide for payment of a fee in excess of the fee charged for similar treatment of an individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf.

- The Division finds that a reimbursement methodology based upon payment of a hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. Such a reimbursement methodology would leave the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs. Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital's billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
- The requestor does not discuss or explain how payment of the amount sought would result in a fair and reasonable reimbursement for the services in this dispute.
- The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement for the disputed services.
- The requestor does not discuss or explain how payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
